MASTERING FIVE WAYS TO BEND &

Friday & Saturday: 9:30 am - 12:30

Having the ability to bend wood into exact shapes opens up an enormous range of exciting possibilities for your wood creations. With precisely bent and curved components, you can make anything from chair parts to table aprons, cabinet doors to sports equipment and musical instruments. Mike's demonstration will give

WOODWORKING WITH MIKE BELZ

VISIT theworkbench.com  CALL 800-292-5937

THE CURVE

SHAPE WOOD

pm

FREE

you the information and knowledge needed to apply the most appropriate bending technique for any application. Steam Bending, Tapered Laminating, Vacuum Forming, Kerf-Bending, and Hot Pipe Bending will all be demonstrated. All of the wood bending setups can be duplicated inexpensively in your own workshop.

OWSKI

Mike Belzowski is known for blending woodworking and fine craftsmanship with cutting-edge building science. Mike views carpentry as an art form, capable of creating living spaces that both comfort and inspire. He received his formal training from the renowned Marc Adams School of Woodworking and has been featured in Fine Homebuilding's Master Carpenter Series.

VENEERING

THE BASICS AND BEYOND

Saturday: 12:30 pm - 3:00 pm

FREE

Figured veneer can add dimension, depth and decoration to your pieces.

During this demonstration, Mike covers the basics of veneering. The techniques are simple to grasp and the results can be dramatic. Topics include: 4-way matches and layout techniques; creating borders; glueing strategies, taping, and seaming; using the vacuum press and more. Lots of tips, tricks, and resources will be included.

FUN WITH TOOLS

Friday: 2:00 pm - 4:30 pm

FREE

Sharpener Basics. The dull edge of a tool is one of the most frustrating things about woodworking. But never fear. Your card scrapers and chisels will become razor-sharp with Mike's secret tips.

Hand Plane Basics. The ability to use a hand plane is a very important skill. Hand planes are used to dress lumber, straighten edges, create and fine tune joinery, make moldings, and prepare surfaces for finishing. Mike will discuss different types of bench planes, their setup and use, and how to sharpen and tune the tool to perform at its best.

Glues and Glue-up Strategies. Jointing with glue-ups is a precise business. Mike breaks it down into simple steps.

Hand Cut Dovetail How-To. Hand-cut dovetails are the signature of fine woodworking. Learn the tips of hand-cutting dovetails using traditional hand methods.

SCROLL SAW TECHNIQUES WITH KAREN EVANS

Friday & Saturday: On-going throughout both days. No need to pre-register

FREE

Karen has been woodworking since the early 70's, traveling the art show circuit for almost 20 years. Her primary focus was wooden toys, games, and puzzles. Some of her previous clients include domestic and international museum gift shops. She has been featured on American Woodshop with Scott Phillips and various local PBS shows. Karen's work can be found on display in the World Wide Wooden Toys Museum in Japan.

FESTOOL INNOVATIONS

Friday: On-going throughout the day
Saturday: On-going throughout the day

FREE

Festool products represent the best value in the industry. The gains in efficiency, coupled with the exceptional build quality of the product, delivers value that far exceeds the difference in price. Festool Trainer Garrett Sato will be demonstrating equipment, and answering questions both days.

WOOD TURNING WITH MICHIANA WOODTURNING GUILD

Friday & Saturday: On-going throughout both days. No need to pre-register

FREE

Members of the Michiana Woodturning Guild will be on hand demonstrating turning techniques, and safety tips. They will be demonstrating turning small bowls, spindles/tops, and gifts for kids. They will be happy to answer any turning questions. Many turning projects will be on display.

PRESENTATION: PERFECT WOOD FINISHING

Friday & Saturday: On-going thru
out both days. No need to pre-register

FREE

Come see Osmo Wood Finish – America's Most Popular Natural Wood Oil. Osmo products are based on rapidly renewable, natural plant oils that penetrate deeply into the wood, keeping it elastic and healthy, while preventing it from drying and becoming brittle. The product comes in multiple sheen levels and is easy to apply. Osmo Oils allow the beauty of the wood to show, without covering it up with layers of coatings.

LEARN TO TURN WITH JIM CRUM

Friday & Saturday: On-going thru
out the day. No need to pre-register

\$

Anyone wanting to learn the craft needs to begin with simple projects to help you master the basic skills and techniques of turning.

One of the classic objects many people enjoy turning is producing beautiful, homemade wooden pens. Learn to turn a wooden pen for just a \$15 charge for materials.

Making a rolling pin is a perfect woodturning project for those starting out in woodturning. Learn to turn a Set-Depth Rolling Pin for the small fee of \$15 for materials.
