## BEND IT, SHA

Friday - BENDING PART 1:  
9:15 am - 11:15 am

Saturday BENDING PART 2:  
9:15 am - 11:15 am

FREE

**H**aving the ability to bend wood into exact shapes opens up an enormous range of exciting possibilities for your wood creations. With precisely bent and curved components, you can make anything from chair parts to table aprons, cabinet doors to sports equipment and musical instruments.

# WOODWORKING WITH MIKE BELZ

VISIT [theworkbench.com](http://theworkbench.com) 02 CALL 800-292-5937

# PE IT

Mike's demonstration will give you the information and knowledge needed to apply the most appropriate bending technique for any application.

**Friday: PART 1:** Mike will cover Kerf-Bending, Laminate Bending, Vacuum Forming, & Steam Bending.

**Saturday: PART 2:** Mike will cover Laminate bending, Free-form bending, Outside-bag technique with a vacuum press, Hot pipe bending, and Steam bending.

# OWSKI

Mike Belzowski is known for blending woodworking and fine craftsmanship with cutting-edge building science. Mike views carpentry as an art form, capable of creating living spaces that both comfort and inspire. He received his formal training from the renowned Marc Adams School of Woodworking and has been featured in Fine Homebuilding's Master Carpenter Series.

## THE ART OF VENEERING

Friday: 1:00 pm - 3:45 pm

FREE

Discover the art of working with veneer in this hands-on demonstration! Learn the essentials—sharpening a veneer saw, seaming techniques, clamping methods and creating a flawless four-way match. See how to make a short-grain border with a filetti, then master panel glue-up using a vacuum press, plus expert tips on glue and clamping.

## HAND TOOL TIPS AND TRICKS

Saturday: 11:30 am - 1:30 pm

FREE

Step into the timeless craft of woodworking with this engaging demonstration on hand tool use, and fundamentals. Discover how traditional tools bring precision, control, and satisfaction to every cut. Learn essential techniques for sharpening, setup, and safe handling that form the backbone of fine woodworking.

Whether you're new to hand tools or looking to refine your skills, this session will provide practical knowledge, inspiration, and a deeper connection to the craft.

## SCROLL SAW TECHNIQUES WITH KAREN EVANS

Friday & Saturday: On-going throughout both days. No need to pre-register

FREE

**K**aren has been woodworking since the early 70's, traveling the art show circuit for almost 20 years. Her primary focus was wooden toys, games, and puzzles. Some of her previous clients include domestic and international museum gift shops. She has been featured on American Woodshop with Scott Phillips and various local PBS shows. Karen's work can be found on display in the World Wide Wooden Toys Museum in Japan.

## FESTOOL INNOVATIONS

Friday: On-going throughout the day  
Saturday: On-going throughout the day

FREE

**F**estool products represent the best value in the industry. The gains in efficiency, coupled with the exceptional build quality of the product, delivers value that far exceeds the difference in price. Festool Representatives Travis Jessie and Jeff Covey will be demonstrating Festool's New Fall 2025 line-up, and answering questions both days.

### HIGH SKILL

Education, training, and/or certifications beyond a high school diploma.

### HIGH WAGE

Wages equal to or exceeding a statewide and/or regional average for all jobs.

### IN DEMAND

Overall growth & openings in particular careers/jobs above a statewide average.

## BRANDYWINE HIGH SCHOOL

Friday & Saturday: On-going throughout both days.

FREE

**B**randywine High School will be on hand to highlight their impressive new \$8 million CTE facility. Students, along with CTE Director Kirk Shafer, will share details, answer questions, and showcase opportunities this project brings. Join them to learn how the community can support and engage with this exciting investment in the future of skilled trades.

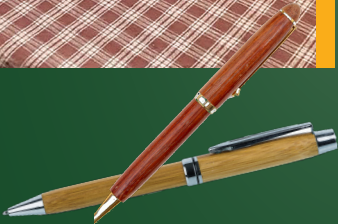

# PRESENTATION: PERFECT WOOD FINISHING

FREE

**Friday & Saturday: On-going thru out both days. No need to pre-register**

Come see Osmo Wood Finish – America's Most Popular Natural Wood Oil. Osmo products are based on rapidly renewable, natural plant oils that penetrate deeply into the wood, keeping it elastic and healthy, while preventing it from drying and becoming brittle. The product comes in multiple sheen levels and is easy to apply. Osmo Oils allow the beauty of the wood to show, without covering it up with layers of coatings.

## LEARN TO TURN WITH JIM CRUM

**Friday & Saturday: On-going thru out the day. No need to pre-register**

**A**nyone wanting to learn the craft needs to begin with simple projects to help you master the basic skills and techniques of turning.

**O**ne of the classic objects many people enjoy turning is producing beautiful, homemade wooden pens. Learn to turn a wooden pen for just a \$15 charge for materials.

**M**aking a rolling pin is a perfect woodturning project for those starting out in woodturning. Learn to turn a Set-Depth Rolling Pin for the small fee of \$15 for materials.

# WE'LL SAVE YOU TIME ON YOUR PROJECTS

Our store boards are available in Domestic Hardwoods, Softwoods, and Exotic Hardwood species. Their workability allows you to cut, shape, and finish the wood to your desired specifications. Our store boards come in a range of uniform thicknesses and various width and length to give you the maximum yield. Quality, and millwork ( R1E, S2S ), ensures that

furniture, cabinets, and wood decor items are functional and aesthetically pleasing.

Whether for custom furniture pieces, built-in cabinetry, or wood decor, our machined lumber provides a reliable material that can be crafted into various designs.
